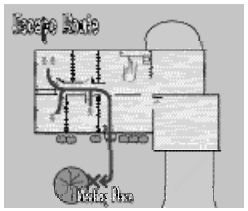
DREXEL HEIGHTS FIRE DISTRICT

Family Escape Plan



1. Draw the floor plan of your house. Mark doors and windows. If you have two floors, use the back to show the second floor.

2. Draw arrows marking at least two ways out of each room. Choose a place outside where everyone will meet. Decide who will call 9-1-1 from a neighbor's phone.

3. **Practice** the plan with all family members to make sure that in the event of a fire, everyone will get out safely.

Be sure to check: Can every person open his/her bedroom window? Is there a plan to help small children and older adults?
Please call the Drexel Heights Fire District Prevention Offices at 883-4341 with any questions about home safety.
